FACILITIES & CAMPUS SERVICES

2019 Tulip Display and Giveaway

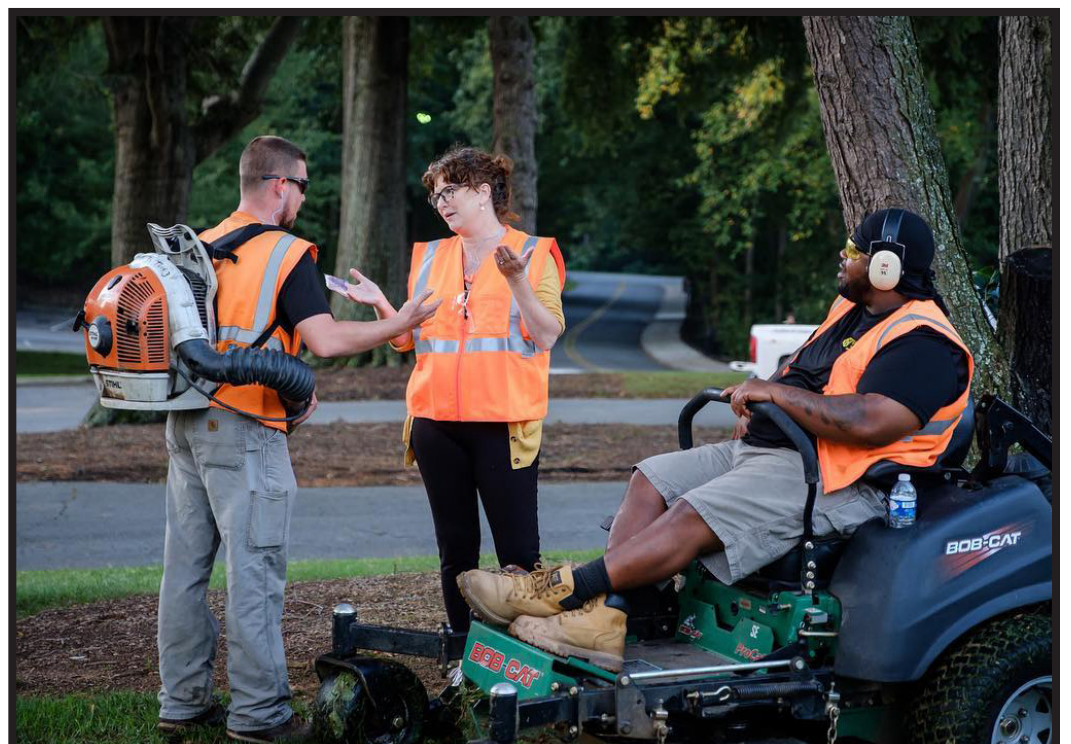

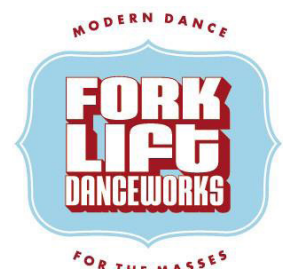

This year's tulip display was magnificent, sparking compliments from staff, faculty, and visitors to campus . One visitor emailed us directly saying,

"I attended the concert at Wait Chapel last evening.
We ate at Village Tavern before. I was BLOWN AWAY with the tulip displays.
Felt like I was in Holland on a bulb tour. The plantings were WOW!!
Starting at the Village, the entrance to WFU and at Wait Chapel.
I was so impressed and a little jealous!!"

Our annual bulb giveaway has been successful in the donation of more than 200 bulbs to staff and faculty across campus. We will continue this tradition next year, with hopes of even more participation from our campus partners.

From the Ground Up

Forklift Danceworks is partnering with our department to create a performance to tell our unique story. The performance is scheduled to take place on Hearn Plaza October 4th and 5th.

Champions of Change

As a kickoff for the eventful Earth Week, Sustainability held an Awards Ceremony with over 70 campus community members to recognize those who have achieved great strides in the area of sustainability. Our Maintenance and Utilities Services Team won the Resource Conservation Award for working to enhance energy efficiency and make lasting strides that work into the [Greenhouse Gas Reduction Plan](#). [Read more about this celebration on the Sustainability website.](#)

Summer Projects

As the semester winds down, we're winding up for our summer projects. Our schedule is full again this year with a number of projects for each team across our department.

Events

As always, our teams helped campus throw some great events in the last quarter. Below are some noteworthy occasions that wouldn't have been possible without the coordination from Lorraine Bradford.

February

1-3 Arts of Leading Conference
21 Founder's Day
22 Dean's List Gala
23 TedX
24 Breakfast with Beta

March

29 Winston Salem Symphony
29-30 WakeHack
30 Prepare Fun Run

Latest News

[North Chiller Plant](#)

A long planned and long awaited project gets a big reveal in our first Latest News article of the calendar year. Read more about how the new North Chiller Plant helps to improve overall campus efficiency.

[Wendy Wooten: The Woman Behind the Project](#)

In our last newsletter, Wendy is highlighted for collaborating with Athletics on capital projects like the Sports Performance Center. Read more about her career progression and the ways she adds to our Planning and Construction team.

[The Tree Doctor Is In](#)

A new piece of technology has made it to our arborists, helping to diagnose and assess the health of trees on campus. Read more about Tree Check and its role in the Tree Advisory Committee's tree removal process.

Library Odor Remediation Project

Team 1 has been searching for an intermittent, lingering odor in the ZSR library for some time. Recently, a renewed effort along with the use of a snake camera in the sewer lines finally led them to a break in the pipe under the concrete floor in Starbucks. The team quickly acted, sawing out the tile and concrete in the affected area to make repairs to the pipe, solving the odor mystery and relieving library staff and patrons alike.

Earth Week Banner

Janice Schuyler led a Department wide effort to paint a gorgeous monarch butterfly banner, showing facts about the endangered species and noting our butterfly sanctuary in the Winston Hall Rain Garden.

Congratulations

Clay Thompson in Landscape Services earned his North Carolina Pesticide License after testing in March.

Rosalba Ledezma completed her Citizen's Police Academy PDC class with perfect attendance!

Greenhouse Gas Reduction at Wake Forest

Our Sustainability Partners put together an info sheet on some of our bigger strides on energy savings to present during Earth Week. [Visit the Sustainability website to see more energy information.](#)

LED Lighting

Upgraded over 5,000 lights to LEDs

Over 90% of lights in 11 buildings have been converted to LEDs including Benson, Reynolds Gym, Hearn Plaza residence halls, and Wait Chapel. Added sensors in nearly every building reduce energy use by automatically switching lights off when a room is unoccupied.

Renovations

Major Renovations to over 14 Buildings since 2007

Retrofitting old buildings with remotely monitored temperature regulation systems, new windows, light sensors, and other technologies helps keep occupant comfort high and energy use low. Hearn Plaza residence hall renovations increased efficiency by over 20% in each building (and water efficiency by 40%). Newer buildings like Angelou and Farrell Hall are equipped with the latest technology and efficiency measures.

Commencement is Coming

May 20th 9am

As we gear up for Summer Projects, the biggest event of the year is quickly approaching. [See the commencement website for the full day's schedule.](#)

Job Shadowing Project Reception

April 29th 3pm - 4:30pm

The Job Shadowing Project by spring semester students showcases our department and the work we do. Join us at a reception and panel discussion to learn more about the project and "From the Ground Up."
